

Designing Accessories for iOS and OS X

Session 700

Peter Langenfeld
Accessories Software Manager
Core OS

These are confidential sessions—please refrain from streaming, blogging, or taking pictures

Introduction

- New features in iOS 7
- New features in OS X 10.9
- Frameworks to interact with accessories
- Advances in Wi-Fi, AirPlay, Bluetooth, and Lightning connector

Health and Fitness

Health and Fitness

Home

Health and Fitness

Home

Fun

USB Audio

- Core Audio framework
 - iOS and OS X
- USB Audio 2.0 standard
 - Input and output
- 16 bit linear PCM, 32 kHz, 44.1 kHz, and 48 kHz sampling rates required
- Multichannel audio available
- Volume synchronization available

Game Controller

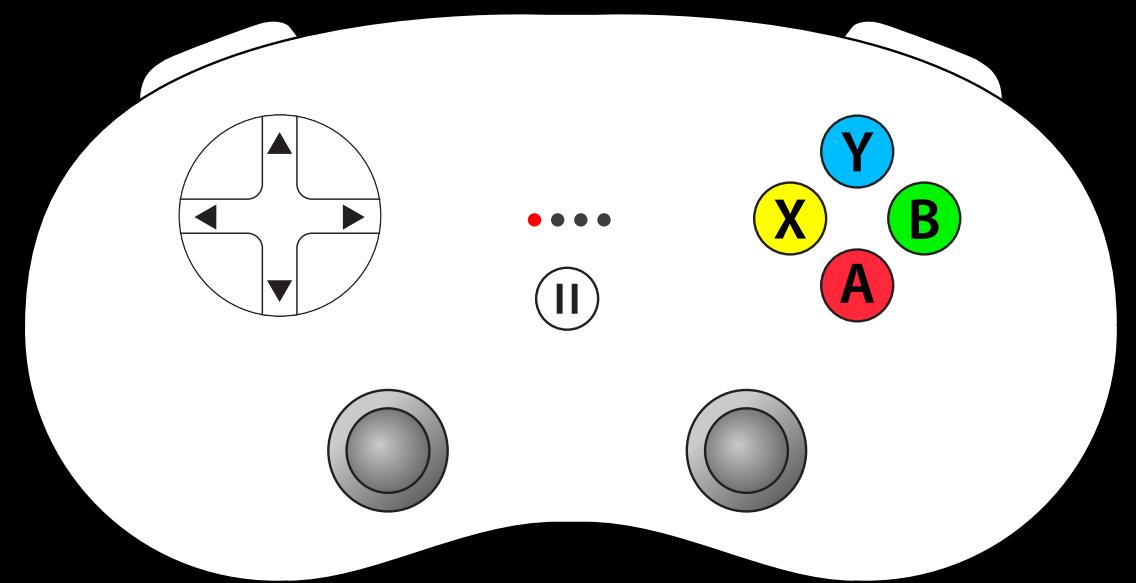

- Game Controller framework
 - iOS and OS X
- Standardized controls and layout

Standard
Gamepad

Game Controller

Extended
Gamepad

Standard
Gamepad

iPod Accessory Protocol (iAP)

- Media library access
- External Accessory protocol (EA)
 - Accessory app discovery and launch
- Location information
- Accessibility
 - VoiceOver
 - HID AssistiveTouch

Menu of Choices

	Audio	Communication with apps
Wi-Fi	AirPlay	Sockets
Bluetooth	A2DP	External Accessory
Bluetooth 4.0 Low Energy	MFi hearing aids	Core Bluetooth
Thunderbolt	PCI Express	PCI Express
Lightning	USB audio	External Accessory
USB	USB audio	USB Device Interfaces

Wireless

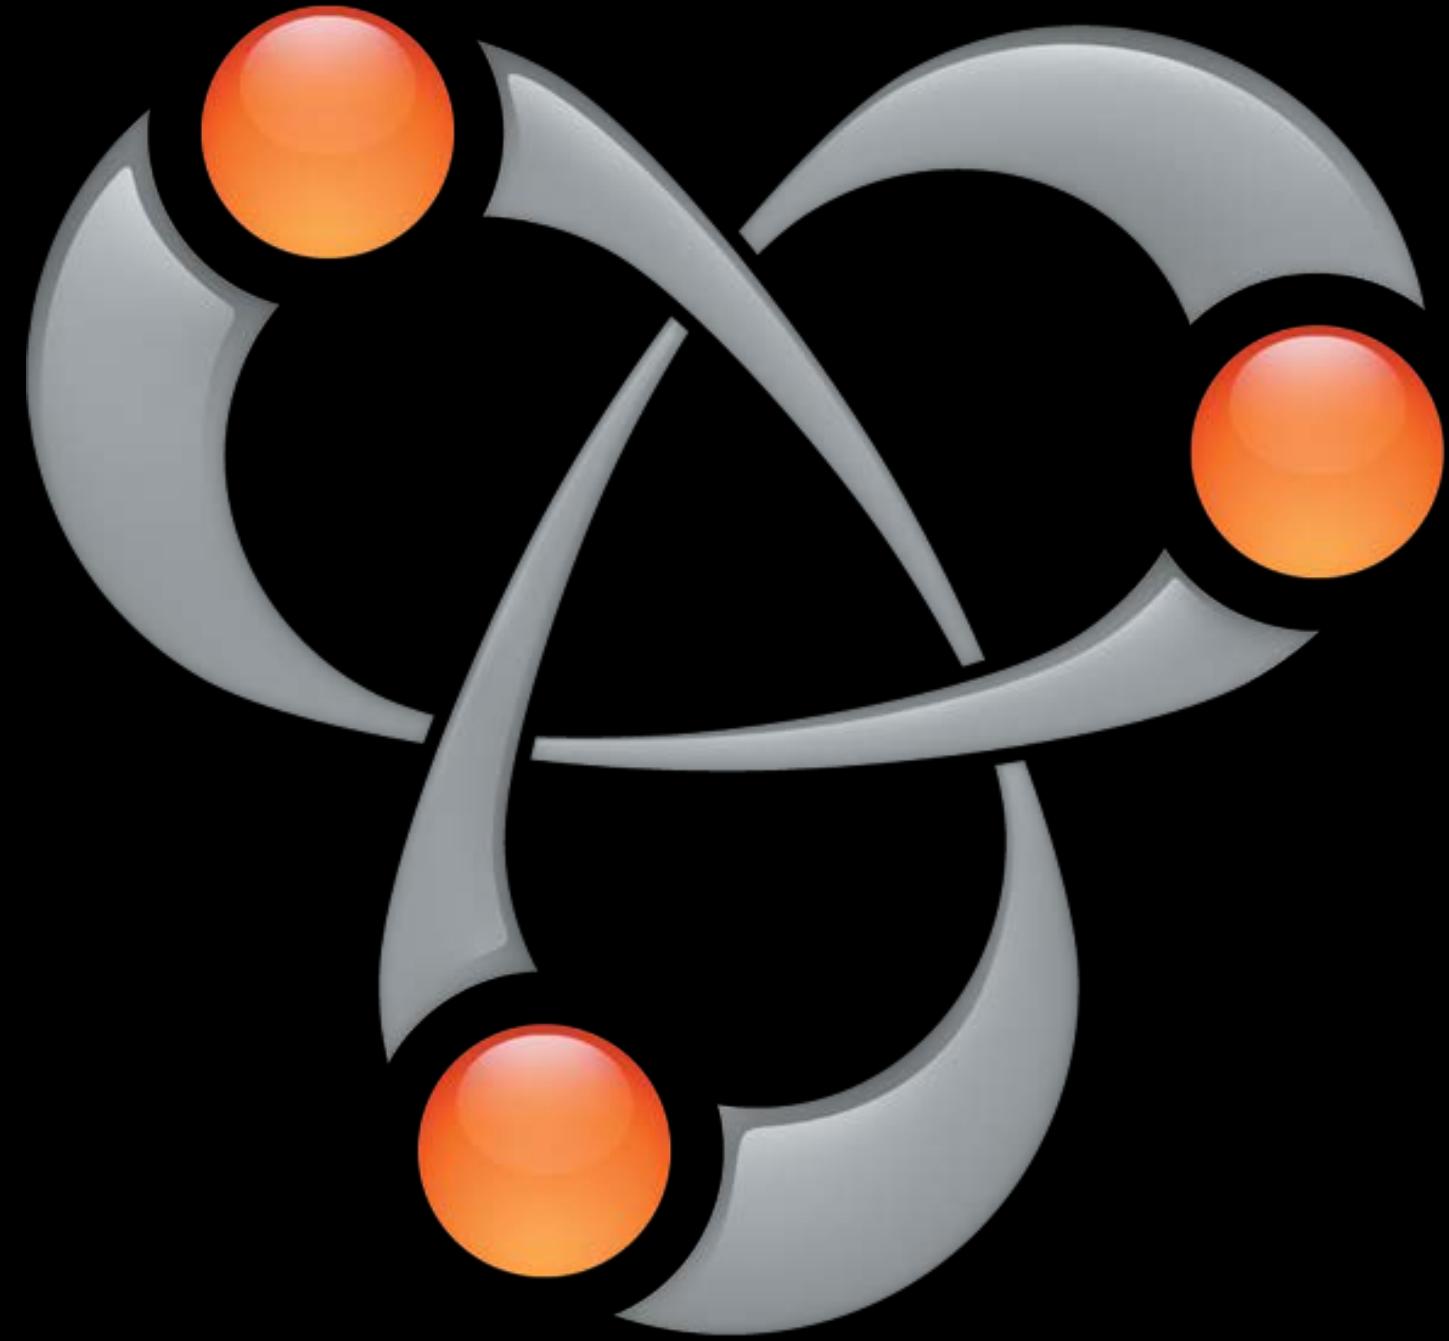

Wi-Fi

- Software
 - Networking sockets and ports available to all apps
 - Bonjour services available to all apps
- Hardware
 - Wi-Fi Alliance certification
 - Dual-band operation
 - Quality of Service Wireless Multimedia (WMM)
 - IPv6 vs IPv4

Bonjour

- Zero configuration networking protocol suite
- Friendly name
 - No IP address or URL needed for customer interaction
- Network service discovery
 - Show only the devices you care about based on the functions provided
- mDNSResponder project
 - <http://www.macosforge.org/post/new-bonjour-releases/>

Configuring Wi-Fi Accessories

- Wi-Fi information sharing

Configuring Wi-Fi Accessories

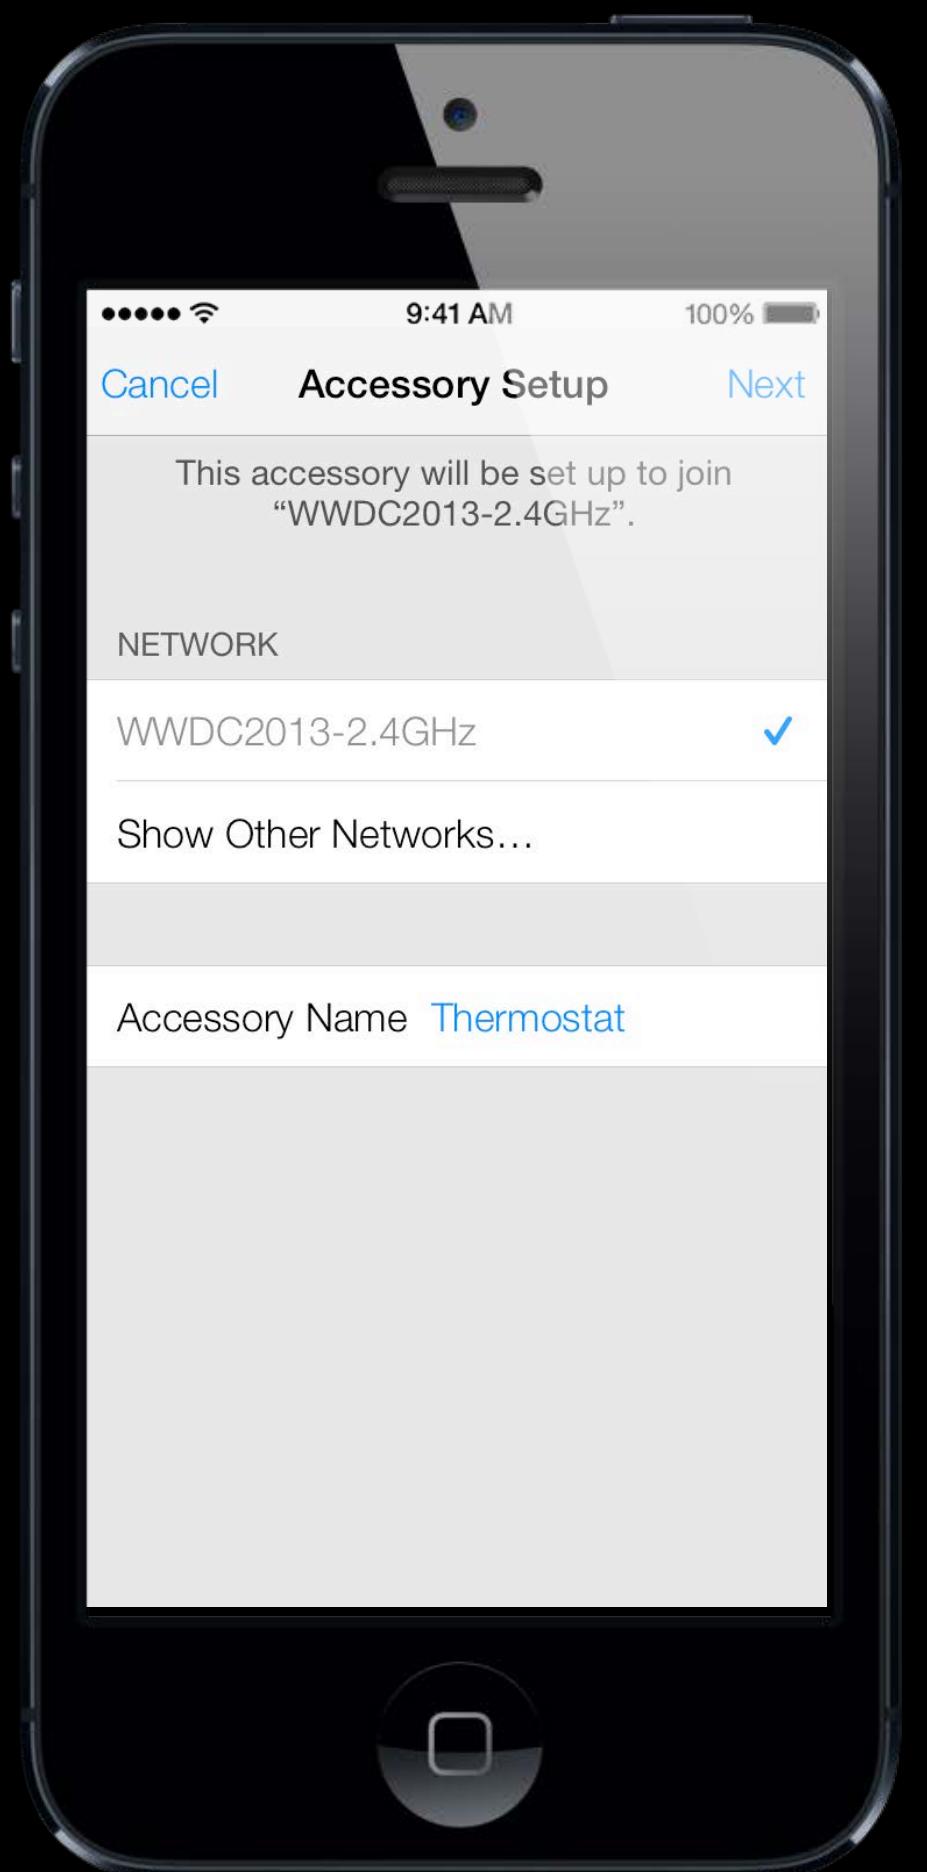

- Wi-Fi information sharing
- Wouldn't it be nice if there was another way?
- A Wi-Fi only methodology

Configuring Wi-Fi Accessories

AirPlay Audio

AirPlay Audio

- Enable Wi-Fi accessories to accept AirPlay audio streams

AirPlay Audio

- Enable Wi-Fi accessories to accept AirPlay audio streams
- AirPlay audio available for implementation on platform of choice
- AirPlay product definition, feature set, compliance, and certification programs all remain unchanged

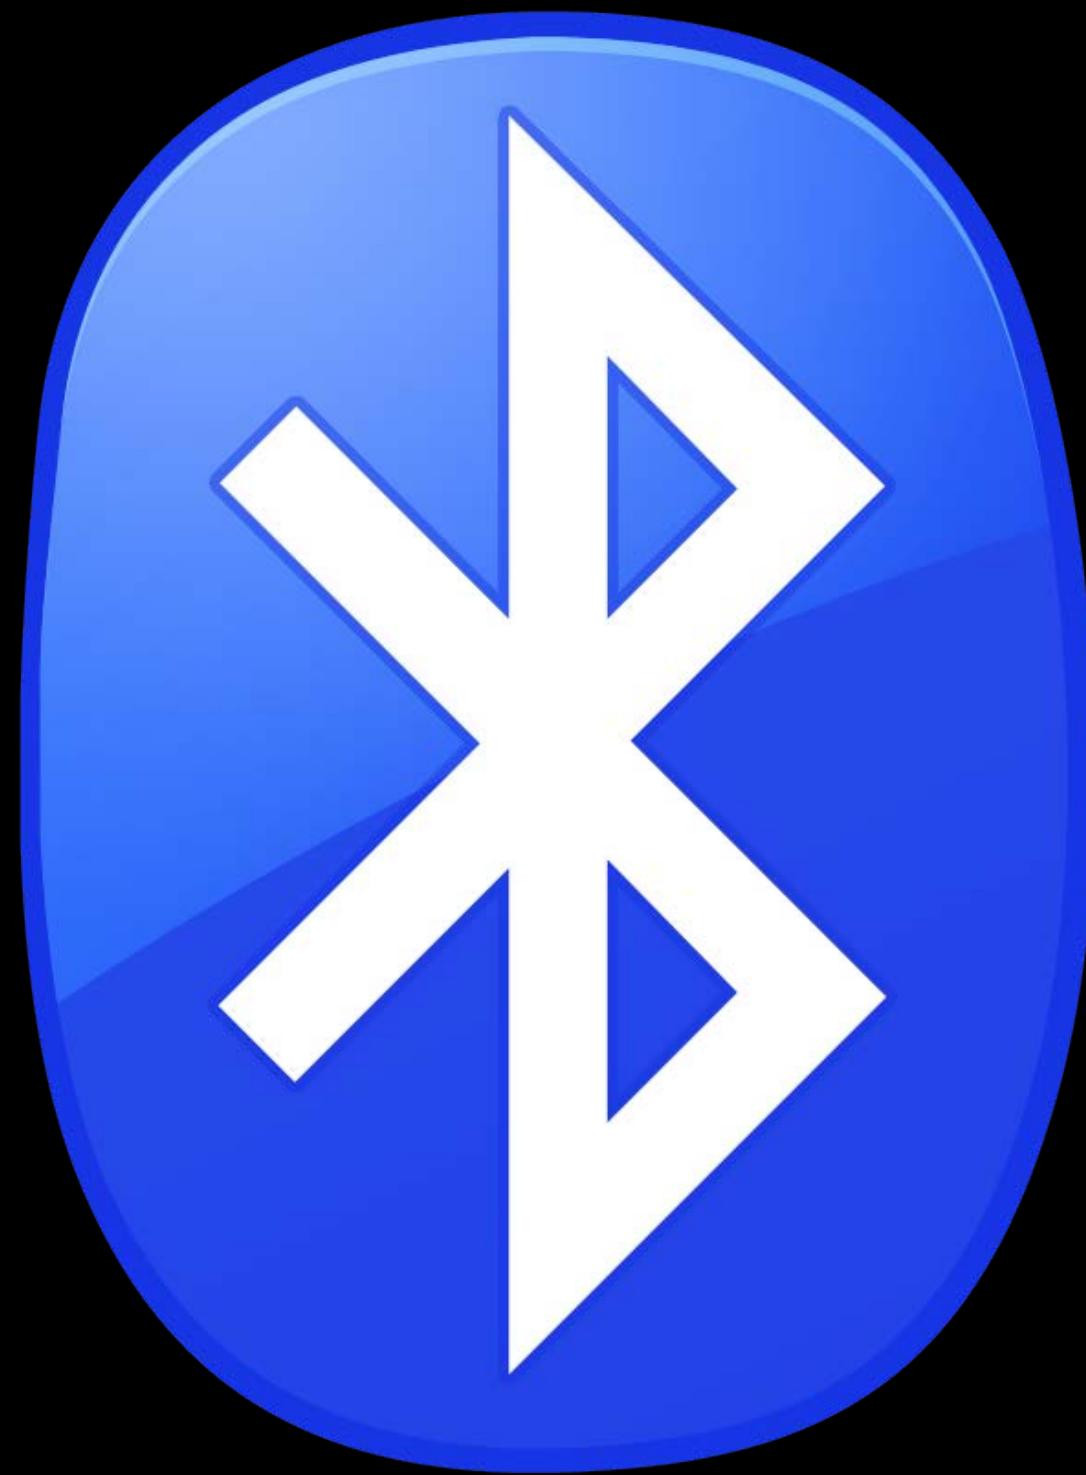

Bluetooth Update

Brian Tucker
Manager, Wireless Software Engineering

What's New in iOS 7

- CoreBluetooth App Preservation and Restoration
- BLE-based Proximity services
- iOS Hosted BLE profiles
 - HID over BLE
 - Alert notification
- Hearing Aid support

State of OS X Bluetooth

State of OS X Bluetooth

Classic Bluetooth

Advanced Audio Distribution Profile	A2DP 1.2
Audio Video Remote Control Profile	AVRCP 1.2
Dial Up Networking	DUN 1.1
File Transfer Protocol	FTP 1.1
Object Push Profile	OPP 1.1
Human Interface Device Profile	HID 1.1
Headset Profile	HSP 1.0
Handsfree Profile	HFP 1.0
Personal Area Network Profile	PAN 1.0
Serial Port Profile	SPP 1.1

Custom

iPod Accessory Protocol

Wired

Edwin Foo
iOS Accessories Engineering

Thunderbolt

- High speed data and high resolution video on one cable
- PCI Express and DisplayPort protocol
- Dual-channel, bi-directional 10 Gbps per port
- Up to 10 W for bus powered devices
- 20 times faster than USB 2.0 and up to 12 times faster than FireWire 800
- Daisy chain up to six devices per port

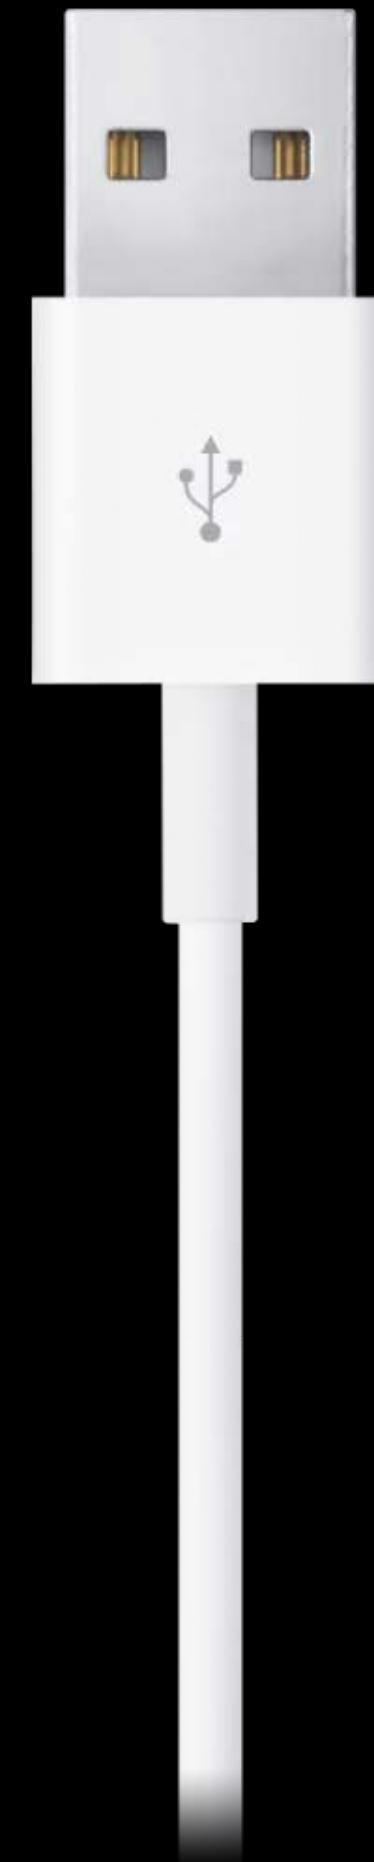

Thunderbolt

- Certification program ensures high quality devices
- Refer to Thunderbolt Device Driver Programming Guide on Apple website

USB 3.0

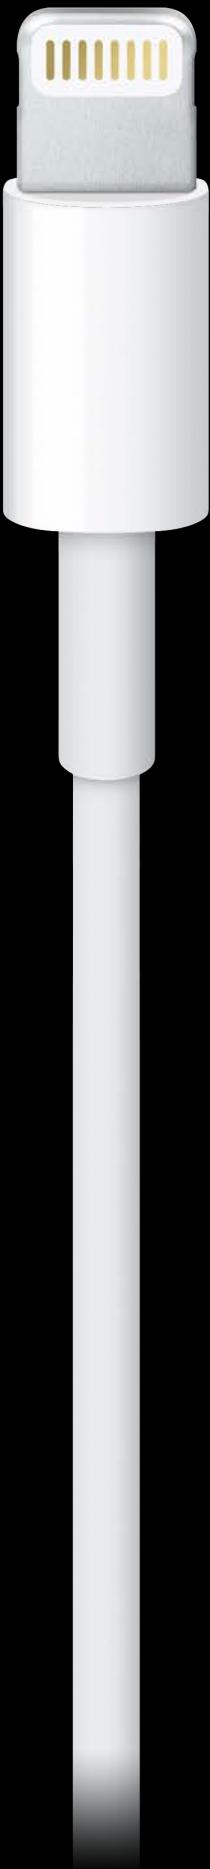

- Most Macs ship with USB 3.0 ports
- 900 mA power per port for device power and charging
- Up to 5 Gb/s of data throughput
- High performance storage devices should use UAS
- USB-IF certification recommended

Lightning

- Digital
- Reversible
- Positive insertion/removal
- Bi-directional power
- Data
 - USB Host Mode (Audio/MIDI, HID, iAP)
 - USB Device Mode (Audio, iAP)
 - Serial (iAP)

Headphone Remote and Mic

- Apps can receive remote control events
- Standardized microphone

Game Controller

- Game Controller framework
- iOS 7 and OS X 10.9
- Consistent control layouts
- Transport agnostic
- Prototypes in lab
- Additional Information
 - MFi Accessory Interface Specification
